## Converting B Squared levels to CASPA levels

This document lists the B Squared level that corresponds to each of the levels available in CASPA. As B Squared outcome levels are not limited to a discrete set of possible values, it is likely that the appropriate CASPA level will have to be selected by choosing the best match to the B Squared level; for example the closest match in CASPA to a B Squared level of '55\% of P6' would be ' $60 \%$ of P6', which gives a CASPA level of P5.6. Equivalences are based on information supplied by B Squared.

For certain subjects in B Squared, there are no sub-divisions at levels P1, P2 and P3, nor at National Curriculum levels 1 and 2 , and in such cases the $B$ Squared levels corresponding to CASPA levels should be read from the first column of the table below. In all other cases, the B Squared level corresponding to CASPA levels should be read from the second column.

For those schools holding B Squared data in electronic form, B Squared scores will be automatically converted to CASPA scores during the import of assessment results from a B Squared XML data export file.

Please note that CASPA does not assign scores below P 1 (i). 0 to pupils working at B Squared levels below 'Completed P 1 (i)' or '50\% of P 1 ' due to the nature of the requirements for P1(i) as published by QCA. Please also note the equivalence in B Squared between assessments at levels 1 and 2 for subjects with and without sub-divisions $C, B$ and $A$ at these levels, and for levels 3,4 and 5 .

| B Squared levels P1,P2,P3,1 and 2, without sub-divisions | All other B Squared levels | CASPA Level | CASPA Score |
| :---: | :---: | :---: | :---: |
| 10\% of P1 | 20\% of P1(i) | P1i.0 | 1.00 |
| 20\% of P1 | 40\% of P1(i) | P1i.0 | 1.00 |
| 30\% of P1 | 60\% of P1(i) | P1i.0 | 1.00 |
| 40\% of P1 | 80\% of P1(i) | P1i.0 | 1.00 |
| 50\% of P1 | Completed P1(i) | P1i.0 | 1.00 |
|  |  |  |  |
| 60\% of P1 | 20\% of P1(ii) | P1i. 2 | 1.10 |
| 70\% of P1 | 40\% of P1(ii) | P1i. 4 | 1.20 |
| 80\% of P1 | 60 \% of P1(ii) | P1i. 6 | 1.30 |
| 90\% of P1 | 80\% of P1(ii) | P1i. 8 | 1.40 |
| Completed P1 | Completed P1(ii) | P1ii. 0 | 1.50 |
|  |  |  |  |
| 10\% of P2 | 20\% of P2(i) | P1ii. 2 | 1.60 |
| 20\% of P2 | 40\% of P2(i) | P1ii. 4 | 1.70 |
| 30\% of P2 | 60\% of P2(i) | P1ii. 6 | 1.80 |
| 40\% of P2 | 80\% of P2(i) | P1ii. 8 | 1.90 |
| 50\% of P2 | Completed P2(i) | P2i. 0 | 2.00 |
|  |  |  |  |
| 60\% of P2 | 20\% of P2(ii) | P2i. 2 | 2.10 |
| 70\% of P2 | 40\% of P2(ii) | P2i. 4 | 2.20 |
| 80\% of P2 | 60\% of P2(ii) | P2i. 6 | 2.30 |
| 90\% of P2 | 80\% of P2(ii) | P2i. 8 | 2.40 |
| Completed P2 | Completed P2(ii) | P2ii. 0 | 2.50 |
|  |  |  |  |
| 10\% of P3 | 20\% of P3(i) | P2ii. 2 | 2.60 |
